

“CITY IN THE MIRROR - AIGC: THE GENERATIVE NARRATIVE OF FUTURE IMAGERY”

AIGC and Interaction Design

Team Project

June 17.2024-July 17.2024

This film explores Macau's unique cultural heritage, using AI technology to breathe new life into history. By showcasing Macau's commercial past and the evolution of Portuguese-style azulejos (ceramic tiles), it highlights the fusion of Portuguese art with traditional Chinese culture. Through vivid animated storytelling, the project aims to preserve and promote this distinctive art form, ensuring its legacy endures.

My Contribution: 30% concept, 80% AIGC, 10% 3D modeling, 100% Vocieover and video production

BACKGROUND

Macau's Portuguese heritage lives on through azulejos - the iconic blue-and-white tiles adorning street signs, churches, and buildings. Local artists still practice this traditional craft through workshops, while its motifs influence contemporary architecture and souvenir designs across the city.

SCRIPT STORY

Origins

Introduce the historical roots of Portuguese azulejos and Chinese Blue-and-White Porcelain.

Comparative Study

Highlight the key distinctions between these two ceramic art traditions.

IP Narrative

Bring history to life through animated characters who guide the audience.

Cultural Legacy

Promote the intangible cultural heritage of Macau's unique Luso-Chinese azulejo fusion.

IP CHARACTER DESIGN

Name: Azulejo

Place of origin: Portugal

Silhouette: Square-shaped, capable of being designed with diverse decorative patterns

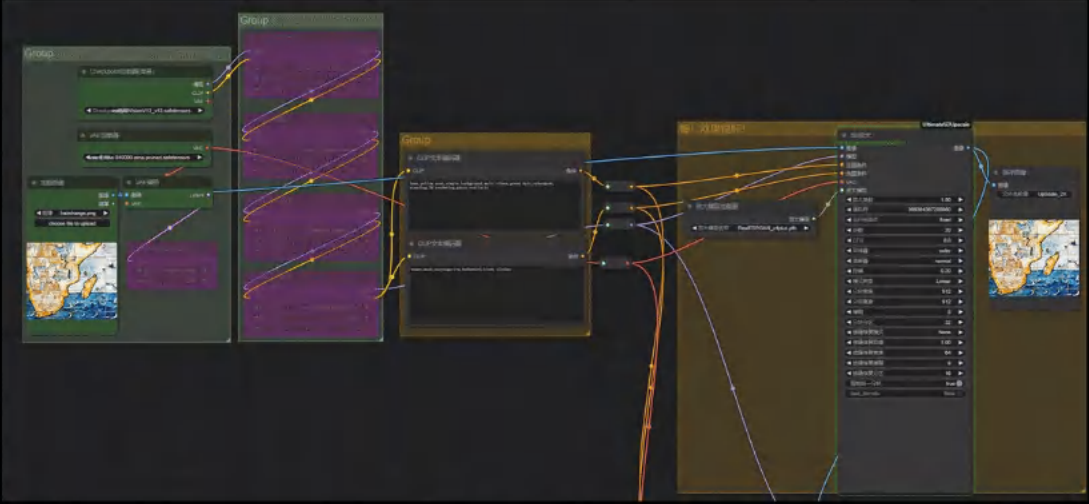

Name: Blue and White Porcelain (Qinghua Ci)

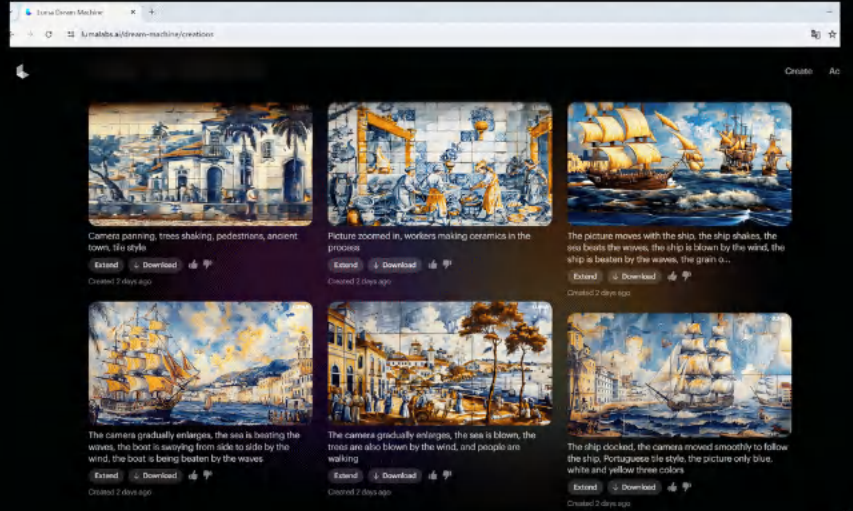

Birthplace: China

Silhouette: Characteristically vase-shaped, exuding timeless elegance through its sublime contours"

BLUE AND WHITE PORCELAIN DERIVATIVE
MODEL – COMFYUI NODE-BASED WORKFLOW

ComfyUI Prompt

Positive prompt : A traditional Chinese blue-and-white porcelain rooster figurine, crafted from pristine white ceramic, adorned with intricate cobalt blue peony and cloud patterns. The tail feathers feature a deep indigo gradient, while the comb is sculpted with rich blue glaze for a three-dimensional effect. Delicate gold tracery highlights feather details, with scattered crimson enamel blossoms on the wings. The rooster stands proudly on a wood-textured ceramic base, contrasting with the glossy porcelain body. Rendered in ultra-HD 3D, soft studio lighting enhances the ceramic's luster and subtle crackle glaze. Black background, cinematic depth of field, 8K resolution, museum-quality artwork..

Negative Prompt : perspective, side/back/angled views, depth map, vanishing points, parallax, spatial rotation, dynamic shadows, foreshortening, posture variation, ambient occlusion, atmospheric haze, lens flare, texture gradients, overlap objects, ground plane, horizon line, non-orthographic projection, depth of field

Midjourney Prompt

- 1 Delft blue porcelain chicken-shaped puzzle, isolated on a black background, flat lay.
- 2 One white, blue, and red Delft-style rooster, in the shape of four tiles, isolated on a black background, in the front view.
- 3 Rooster ceramic figurine, blue and white with red accents, painted in the style of Delft, 4 tiles arranged like a puzzle on a black background.
- 4 Delft blue porcelain, Chinese chicken-shaped three-dimensional tiles isolated on a black background, front view.
- 5 Delft blue porcelain rococo-style rooster-shaped three-piece puzzle, isolated on a black background, high-resolution photography.
- 6 A blue and white porcelain rooster-shaped pin, painted with red flowers in the style of Delftware on a black background, has a symmetrical composition with simple details and bright colors. The high-resolution image was captured under studio lighting with a hard light source, resulting in high contrast and no shadows, giving it a flat design aesthetic. The top half features a geometric pattern of floral motifs, while the lower half has four legs resembling those of an American chicken. The pin is placed against a pure matte black backdrop.
- 7 Hand-painted ceramic brooch depicting the character "hen" in a traditional Portuguese azulejo pattern, isolated on a black background, with a full-body view and a wide-angle shot.
- 8 Hand-painted porcelain chicken brooch in the style of Chinese art, with a white body and a red and blue floral pattern decoration on the chest, viewed from the front, against a black background. 3D rendering, studio lighting, high resolution, high detail, high quality.

WORK FOLW

1、Deploy ComfyUI 3D pack

2、Install CUDA

3、Start Stable Diffusion
